

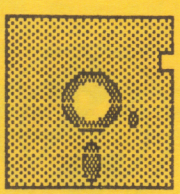
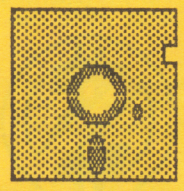
PUBLIC DOMAIN SOFTWARE FOR ATARI 800/XL/XE



M.W.P.D.S.
890 N. HUNTINGTON STREET
MEDINA, OH 44256



Thank you for requesting a copy of our Atari 8-bit library catalog! Our public domain library was created as an alternative to the high prices of commercial software. We have sold thousands of disks to satisfied Atari 8-bit owners and are committed to offering you the best service at the lowest possible cost. Many people have written to tell us that they not only appreciate our rock-bottom pricing, but also the quality and quantity of the software on our disks. You won't find a better value anywhere for your software dollar!

Here's a few reasons why we believe our service is superior...

1) Our pricing is highly competitive, if not the lowest available anywhere!

2) Unlike other public domain distributors, all of our disks are double-sided, which means you get twice as much software as you would on a single-sided disk! (Our disks can be read by any Atari 8-bit disk drive. You don't need a double-sided drive to use these disks as they are flipped over to read the second side.)

3) On average, our disks are fuller than other competitors'. We also have virtually no duplication of programs on different disks. Compare the content of the disks in our listing and you'll see the difference!

4) We reject many disks that some competitors simply copy and sell "as-is." We have also fixed many, many "buggy" programs. This testing takes time and effort, but helps relieve you from the frustration of getting unworkable software.

5) Like most distributors, we will trade for public domain software that is not in our listing. Unlike others, we will give you TWO disks for every one you send us! See the policy portion of the catalog for details.

This catalog and its disk compilations are copyrighted 1989, by M.W.P.D.S., all rights reserved. Atari is a registered trademark of Atari Corporation. Other product and brand names mentioned in this catalog are trademarks of their respective owners. M.W.P.D.S. is not affiliated with Atari Corp. or any other company referenced herein.

GAMES

#85: GAMES Side 1 has the great SUPER QUIZ trivia game, for up to 4 players. Features joystick or keyboard control and 6 categories of questions with user-selectable difficulty levels. Side 2 contains the DATA DISK A, full of questions and answers for SUPER QUIZ.

#86: GAMES SUPER QUIZ data disk. Side 1 has DATA DISK B, side 2 contains DATA DISK C. Both sides are packed with many more questions for SUPER QUIZ, ranging from easy to expert.

#32: GAMES THE TRIVIA QUIZ - An excellent trivia game programmed in machine language. More than 350 questions are included and also has a utility to create your own questions. The assembly source code of the program is supplied for you to study/modify.

#63: GAMES STARLORDS - An absorbing game of space conquest. All machine language, with nice graphics. Play against the computer and with up to 3 human opponents. Save game in progress feature and many play options. With all documentation.

#64: GAMES For 800XL or XE only! Side 1 features TEXAS HOLDEM POKER, a shareware game that lets you play against tough computer opponents. Side 2 has YANKEE 21 BLACKJACK, a shareware version of the favorite casino game, with joystick or keyboard control.

#151: GAMES COMPUTER CRICKET - a detailed simulation of limited-over cricket, for 1 or 2 players. Play out a series with six touring parties from around the world. Lets you customize player rankings & series and includes complete documentation.

#159: GAMES Side 1: JEOPARDY - two-player adaptation of T.V. game show. Side 2 has WHEEL OF FORTUNE - just like the T.V. show, for 2 to 3 players.

#65: GAMES This disk has two character generator utilities for use with the popular Dungeons & Dragons board game. Speeds development of characters.

#152: GAME/DEMO X-rated: Side 1 has SPACE PU**IES, a machine language arcade-type action game. Good graphics and very playable. Side 2 has the ADULT STORE DEMO - new version of the original for adults only. Note: State age (over 21 only) and sign order form when ordering this disk.

#22: GAMES Assorted games: MINIATURE GOLF, TRIVIA TIME, FORTUNE-WHEEL, STAR VENTURE, MIDNIGHT STRIP, OIL GAME, HANGMAN, WARRIOR, VALIANT, CASTLE QUEST, RACERS and more.

#23: GAMES Side 1 includes CHESS, MONOPOLY, EPSILON, SIMON and SPY PLANE.
Side 2 features 3 big adventures: ALASKA, BRAND and DALTON.

#26: GAMES Assorted games: BLACK JACK, LANDER II, GRAVITY, VECTRON, EVERSION, JACKPOT, NORAD, MOONBASE, OREGON and more. Also, THE GAMBLER - play against computer and/or human opponents in this 'many-in-one' game.

#30: GAMES Assorted games: DARTS, CAVERN, SMOKEY, BIFF DROP, ABC SPORTS, TIME TRIALS, ADVENTURE, MICROIDS and more.

#31: GAMES Assorted games: CONCENTRATE, GROAN, HOOKEY, ADVENTURE IN THE 5TH DIMENSION, BIBLE, RUNWAY, BOPOTRON, DIVER, SUB GOLF, DARK HORSE and more.

#74: GAMES Strategy and logic: MIND BUSTERS, FUTURE TANK, SNARK, CONCENTRATION (3 versions), PLAY BACK, HIDE & SEEK, RICOCHET, ABOXES, SIMON4, SHELL GAME, SLIDE, GOMOKO2, HEX PUZZLE, BAGELS and BITS.

#75: GAMES Board and card games: SOLITARE, MILEBORN, XPOKER, PLAY21, BLACKJACK (2 versions), STUD POKER, CRAZY EIGHTS, OTHELLO, GOMOKO, MONOPOLY (2 versions), WITCHING HOUR, 3D TIC-TAC-TOE, SUPEREVERSION, SPEEDELLO, REFLECTION and CHECKER SOLITARE. Also includes CARDS, a card drawing routine for use in your own programs.

#76: GAMES Side 1 has these maze games: SPACE CAVERNS, EAT 'EM UP, MAZE CRAZE, DWARFEN LORDS, GOLD RUSH, HIDDEN MAZE, BUZZ ZAP, MOTORCYCLE MAZE, MINER JACK and more. Side 2 offers these simulation and strategy games: HUNT THE WUMPUS, STOCK MARKET, DIGIBATTLE, NIM, DEPTH CHARGE, BATTLEFIELD, REVERSE, HAMURABI, SUMER and COMPIII.

#84: GAMES Sport gaming: MID-AMERICAN FOOTBALL, GOLF2, BANK SHOT POOL, WORLD SERIES BASEBALL, SKI!, MASTERS' GOLF I and II, BOWLING, FOOTBALL, MINI GOLF (w/construction set) and ACROBAT.

#71: GAMES Side 1 has WORLD OF DUNE - an enjoyable text adventure based on the popular sci-fi book. With docs. Requires 48k min. Side 2 has the powerful WIZARD ADVENTURE CREATOR - lets you develop your own adventure games with its menu driven interface. Does not require programming experience. With extensive documentation. Also includes a sample adventure - MAGAZINE. Requires 48k minimum.

#49: GAMES Side 1 has GOLDHUNT - a large scale, graphic action/adventure game. Includes a room editor utility. Side 2 has the following adventures, all which share an integral menu: SLEAZY, SULTAN, MARKET and SPACE SHIP.

#66: GAMES Adventure and simulation: SUPERMAN, QUEST, BRIDGE CONTRACTOR, ELIZA, LOST TREASURE, BRITISH CONVOY, THE CAVE, NIGHT SHADE, SLAVENTURE, ADVENT X-5 and TREASURE.

#67: GAMES Features popular Star Trek simulations: STARTREK, TREK II, STARTREK3, STARTREK4 and ENTERPRISE. Also includes MOONLORD, a nice arcade-type action game.

#68: GAMES Adventures: WIZZARD, SABOTAGE, LOST UNDERGROUND, ADVENTURE, WEREWOLF, PINCUS, DEVIL'S DUNGEON, KIDNAPPED, ADVENTURE ISLAND, VANDENBURG and COMBAT.

#69: GAMES Adventures: HIGH SCHOOL, MAD HOUSE, BARBOZ, ROAD, CALIFORNIA GOLD and WIZARD'S SWORD.

#70: GAMES Side 1 has these adventures: WORLD WAR III, THE MOUSE THAT ATE CHIGAGO and DUNGEON OF THE GODS. Side 2 contains the excellent EAMON ADVENTURE MASTER DISK, including the BEGINNERS' CAVE adventure.

#77: GAMES Strategy and simulation: PBS CHESS, RAIL KING, HEX WAR, I.Q. EXAM, MANEUVER, DR. LIVINGSTON, TAKE 5, QUEST I, F.L.W., MAXTER MIND and BATTLESHIP.

#124: GAMES Side 1 includes two large adventures - CASTAWAY and ROGUE. Also NUKE PLANT II - detailed nuclear plant simulation. Side 2 features XWORDS - a very good implementation of the popular word game. Includes 26 crossword puzzles to solve.

#160: GAMES Arcade-type adventures: Side 1 features HIDDEN FORTRESS I & II - manuever through multi-level mazes for treasure. Side 2: BENEATH THE PYRAMIDS - search the Great Pyramid for a priceless artifact.

#168: GAMES Side 1: DANDY DUNGEON - Excellent real-time animated adventure game for 1 to 4 players. Comes with 26 ready-to-play levels, but also includes dungeon editor & printer. With docs. Side 2 has the WIZARDS' COTTAGE adventure game - Find the way out by breaking the wizard's spell. Requires 48k min.

#24: GAMES Mostly arcade-type action: LUNAR, LIGHTING ROBOT, MAZE, GOBLIN, CASTLE, WILDWAR, BARRIER, LOST, BATS, STELLAR, ENGINEER, CLOSEOUT and more.

#25: GAMES All machine language arcade-type action: TRON, DEFENDER, MYRIAPEDE, CANYON, LIVEWIRE, INSECTS, HOPPER, CRASH DIVER, VIPER, BACTERIA, FIREBUG, SMASHER and more.

#27: GAMES Machine language arcade-type action games: ELECTROID, INCOMING, BAJA BUG and more. Also includes 3 nice pinball games - AURABALL, CREEPSHOW and SOFTBALL.

#28: GAMES Machine language, mostly arcade-type action: FROGGIE, YAHTZEE, BLAST, GAUNTLET, AMAZING MAZE, BUMPBALL, RATVILLE, LABYRINTH and more.

#29: GAMES Machine language, mostly arcade-type action: GALACTIC, CHISELER, CHECKERS, PIRATES, AMPHIBIAN, BACKTRACK, CHOMPER, SPEED SKI, CRYSTALS, TRICKY, AMPHIB and more. Also includes DRDADV - explore the inside of your Atari with this adventure.

#43: GAMES Arcade-type action: KITTEN (w/screen editor), FIGHTING, CRAZY EGON, GOFF, JACK THE DIGGER, JUMPING GHOST, DEFENDING, STAR CASTLE, DANGER HUNT, STAR SHOT II and more.

#46: GAMES Arcade-type action: JUMPER2, REVOLVER, BANK PANIC, FOOT RACE, NASEN JACK, MINI BILLARDS, SKY SCRAPER, KONG II, BIG QUEST, SKY WARRIOR. Also, CAVES - a text adventure, and DANCE - an animated, joystick-controlled figure.

#57: GAMES Side 1 features two huge Arcade-type games: CHERRY HARRY II and SPACE ATTACK. Also includes EDITOR-IN-CHIEF (a large newspaper simulation game.) Side 2 has more Arcade-type action: MINER RESCUE, WOMBEL, DIAMONDS and AGENT 0815.

#72: GAMES Side 1 has Arcade-type action: ROLLERBALL II, SNAKE, HERO, PANZER, DODGER, GOLDRUSH II, SPACE CAVE and SWARM. Also a simulation: B-1 BOMBER. Side 2 includes these arcade-type games: STAR SHOT, MINE FIELD, ZURK, DINOVENT, CASTLE HEXAGON, JAWS, THIEF and STAR SENTRY.

#73: GAMES Arcade-type action: VOLLEY BALL, CAVES OF ICE, RUNWAY, KNIGHTS & CHALICES, SYNTRON, RACE IN SPACE, LUNAR LANDER (w/built in screen editor), LANDER2, SPACE RESCUE, TWO GUN, TANKS, VAMPIRE RATS, CANNON DUEL, ARENA RACER, FILL'ER UP and more.

#78: GAMES Arcade and simulation: NIGHT FLYER, OUTPOST, ELECTRIC COMPANY, DEAD STICK, ROBOT DUNGEON, AIR RAID, BURGERS, DOG BITE, BOMBERS and LUNAR PATROL.

#79: GAMES Arcade-type action: KONG, TRICKY TRACKS, FLIPPER1, TBIRD, DRAGON LORD, BONK, GRUBS, BOX IN, WIREBALL, BACK TRACK and more.

#80: GAMES Arcade-type action: SPACE FORTRESS, ROAD RACE, SWARM, SAUCER LAUNCH, SNAKE, SPEED DEMON, ROBOT RAID, NUCLEAR WASTE, STAR SECTOR, ANDROTON, UPSANDOWNS, ELEVATOR and more.

#81: GAMES Arcade-type action: AIR HOCKEY, ROCK SLIDE, PARATROOPER, FLIES, LUNAR DEFENDER, BUG ATTACK, METEOR, SIEGE, SUB ATTACK, COSMIC DEFENDER, MUNCHIN' and more.

#82: GAMES Mostly arcade-type action: MOLE ATTACK, JUMPIN' FROGS, BOING, CHICKEN, MONSTER CHASE, GANTLET, DEATH ZONE, TAG123, GUN FIGHTER, DOGGIES, FROG, MINER and more.

#83: GAMES Arcade-type action: POGO, SCRAMBLED EGGS, SUPER BARRICADE, GALACTIC GLOOP, CRICKETS, NERM, HUNGRY HAWKS, MUNCHERS, DESERT CHASE, DINO BATTLE and more.

#148: GAMES VOYAGE THROUGH TIME - Unique, fast-action game consists of 2 voyages, ONE MILLION B.C. and MEDIEVAL ERA. Also has CHAOS - an arcade game. All written by a professional programmer. With docs.

#161: GAMES Side 1 features SKI KING II - skiing game and construction set. Great graphics, icon-driven interface, up to 4 players. With sample ski courses. Side 2 has BOULDER DASH CONSTRUCTION SET. - build your own screens and play them with this clone from

Holland. With sample screens.

APPLICATIONS

#18: APPLICATIONS Side 1 has MICROPAINT - the great clone of the popular drawing program. Includes complete documentation. Side 2 features KSKETCH, DRAW8 w/docs, PAINTER, SLIDES8, FADER and eight picture files.

#42: APPLICATIONS Side 1 has BILLBOARD PRINTER - remarkable shareware for Epson-compatible printers that prints graphics mode 7.5, 8 or 9 pictures almost any size with selectable dot-densities. Side 2 features the original DAISY DOT - a favorite of 800XL and XE users with an EPSON, STAR or compatible printer. Now your printer can produce near-letter quality without any hardware modification. Includes various printer fonts and font editor.

#44: APPLICATIONS Includes these useful programs: BOOKKEEPER, CHECKBOOK BALANCING SYSTEM, TEACHERS' WORKSHOP and more.

#51: APPLICATIONS TEXTPRO VER. 2.5r - the superb public domain word processor for those with an RS-232 (850 or PR:) interface. Many features not found in commercial products including concurrent telecommunications and serial printer support. Comes with extensive documentation.

#55: APPLICATIONS R-DRAW - a full-featured mode 8 paint program for the 130XE (only), with sample pictures and docs. Also includes R-DRAW source listing for customizing.

#58: APPLICATIONS Side 1 features CAD 3-D, modeled after the ST version, complete w/docs and sample drawings. Side 2 has CAD (a totally different CAD program), the XYPLOT graphing package (w/docs), and MENUMKR2. Also includes MACH DOS 2.1, a popular replacement for Atari DOS.

#59: APPLICATIONS CAD/CAM - This disk contains a powerful CAD system, complete with 2 and 3 dimensional modules and extensive documentation.

#131: APPLICATIONS Side 1 has SPEEDSCRIPT w/DOCS, a terrific word processor - easy to use but powerful; and SPEEDCALC w/DOCS - a powerful spreadsheet, similar to VisiCalc. Also: SUPLABEL, LABELPLUS and more. Side 2 features the SCRIPTOR word processor (req. translator on XL/XE), RECIPE, TYPEDRILL2 and more.

#132: APPLICATIONS Mostly business and financial: STOCKCHART, SINKFUND, SPREADSHEET, FVPERIOD, MPG, MAILLIST3, MATHCALC, SHOPPER, MAILPROG and others.

#133: APPLICATIONS This disk features mostly applications (and a few utilities), including: APCALENDAR, BUS825, BARGRAPH, DISKKEEP, BIORHYTHM3, FINANCE, DKMASTER42, FIN1 and more.

#155: APPLICATIONS FOOTBALL ANALYSIS - Can help you compile statistics and predict the outcome of future games. Both PRO and COLLEGE versions included, w/docs. 800XL or XE only!

#156: APPLICATIONS PAPER AIRPLANE CONSTRUCTION SET - Unique program that lets you view designs of various airplanes (w/folding instructions), and then print them out on an Epson-compatible printer. Includes drawing program.

#157: APPLICATIONS For the 130XE only. Side 1: MICROCHECK 130XE - Deluxe upgrade of the popular checking program. Side 2 has CAD XE - shareware demo version of computer-aided design, must write author for docs.

#158: APPLICATIONS Side 1 features SIGN MAKER - Versatile shareware program to print signs and flyers with up to 3 fonts & 2 icons per page. Requires 64k. Epson-compatible and SG-10 printer support. Side 2 has PACE LABELER - full-featured disk labeler program. With drivers for most printers.

#165: APPLICATIONS TEXTPRO 1.2 - This version of the very popular word processor is offered to those without need of concurrent telecommunications capability or serial printer support. Provides a larger text buffer than version 2.5r. Comes with full docs.

#166: APPLICATIONS Side 1 has DAISY DOT II - Produce fantastic NLQ output on your Epson, Star or compatible printer. This improved version supports 48k 400/800's & XL/XE models, and includes a enhanced font editor to create/customize fonts. Also, UTILITIES to convert Atari screen character sets to DAISY DOT fonts, and to italicize any DAISY DOT font. With sample fonts. Side 2 is packed full of fonts in many styles for use with DAISY DOT or DAISY DOT II.

UTILITIES

#35: UTILITIES The original TRANSLATOR DISK - you may need this disk to run some programs written for the 400/800 series computers on your XL/XE. Works with much commercial software (and non-protected software as well). Includes two versions of the translator.

#36: UTILITIES Includes: DOS MASTER, WINDOWS2, CROSSREF, MENUPLUS, NO DOS, DISK SCAN, GAME BOX, KEY CLICK and others.

#37: UTILITIES Includes: DISKFIX, DEBUG, SUPER COMPARE, DISKIO+, TRACE, VERSION C, DISK LABEL, RPM TEST and more.

#38: UTILITIES Includes: GEMINI, MINITERM, TOOLBOX, LISTER, TV TEST, EXTENDED BASIC, ULTRADUPE, LOCK PICK and others.

#40: UTILITIES Includes: DISASSEMBLER, REPAIR, MAXI MENU, X-REFERENCE, LABEL PRINT, POLY COPY, AUTOMATE, DIGITAL CLOCK, NEAT LIST, SECTOR UTILITY and others.

#41: UTILITIES Includes: DISCOM2, SUPER DUP.SYS, SUPER FONT, PSEUDO DOS, BAR CHART, SOUND EFFECT, KWIK DUMP, JOYSTICK TEST, HOT STUFF, BLOCK CURE and more.

#48: UTILITIES Includes mostly utilities, along with a few applications: REBUILD, SPEED SWITCH, RELOCATE+, REMKILL - (all w/detailed docs), APPOINTMENT SCHEDULER, ENCRYPT, CX85 HANDLER, GENERIC SORT, BIOCHART II, OVERWRITE and more.

#52: UTILITIES Includes: ARC and ARCX (file compression/extraction util.) - with complete docs., MPP FAST SCAN, SUPERKEY w/docs., DETECTOR, DISK CLONE, GRAPHICS DEVICE and more.

#53: UTILITIES Includes: Newer, improved version (ver. 4.3) of popular COPYMATE disk copier- which now supports most drive/memory configurations, COMPACTOR, PROTECTOR, RENUMBER, ACEDUP.SYS and others.

#54: UTILITIES Includes: CODEBUSTER w/docs, large selection of MENU programs, SCRUNCH and SHRINK (file compression/extraction), CARTRIDGE COPY II, P/M demos & util. and more.

#120: UTILITIES Ram upgrades for the Atari. Want to increase the memory of your Atari and save some money? This disk is packed with files that explain (in detail) how to do it. Also includes some disk copying programs to take advantage of added memory.

#125: UTILITIES Includes: MISER, MOUSER, PROTECT, MODDOS, DASM6502, REKEY, BADSECT and many more. Also these applications: HOME INVENTORY, MY GARDEN.

#126: UTILITIES Disk utilities and file transfer programs, including: DOSWIZ, RECOVERY, DATAXFER, BOOTCOPY, CASSOBJ, FORMAT2, UNDELETE, TAPEDISK and more.

#127: UTILITIES Printer utilities: CUSTOM, RETURN LABEL MAKER, SYNPRINT, NICELIST, NECFIX, TWO COLUMN, DISKLIST, ONE LABEL and more.

#128: UTILITIES Mostly printer utilities: ENVPRINT, MX80DUMP, WRAPPING, DIRLABEL, BANNER80, PROPRINT, PRINT TEST, SCRNDUMP, POSTRMAKER and more.

#129: UTILITIES Programs for P/M graphics, the Koala Pad, and for the 1020 plotter: PMTEACH, PSF1020, KOALASHOW, PLOT1, PMEDITOR, KOALA PRINT, TURTLE (LOGO-like lang. for the 1020) and more.

#130: UTILITIES This disk has ARTSHOP - manipulates Print Shop icons and converts between Micro Paint pictures and Print Shop graphics. Also has other Print Shop and Micro Paint utilities, many different menu programs to automate your disks, and more.

#137: UTILITIES This disk has programs for the BASIC and assembly language programmer, including: MASHER, ATOB, REVABAS, EXTERM, COMPARE, BITZ and many more.

#150: UTILITIES Features: DUD (Dataset Utility Program) - similar to IBM DITTO, ACE Translator - deluxe XL/XE 'translator' lets you select ram size, fast or normal math routines and character set! BLOC (Binary Load file Compresser) - shrinks ML programs, SHADOW - deluxe copy utility, PROBJ - processes DOS load files.

#154: UTILITIES Side 1 features SUPER INDEX, QUICKSORT, DISK DIR, CALENDAR and others. Some programs require translator on XL/XE's. Side 2 has these file utilities: CONVERT, CONTEXT, SPELLER (w/word file), and more.

#169: UTILITIES Side 1: COPYMATE 4.4 - newest version of the best disk copier available. Utilizes most memory upgrades, high speed drives, and copies single or double density. Preserves high-speed disk formats and displays directories. Auto-sensing of drives, memory and formats! With docs. Requires minimum of only 16k RAM. Side 2 has SUPER COPYMATE XE - for 576k upgraded 130XE's. Supports SSDD, SSDD, DSSD, DDDD and up to 4 drives.

#173: UTILITIES Side 1 contains programs that take advantage of the 130XE's added capability. Includes: RAMCOPY, XEBAS, COPY130, RAMDISK2, RAMXE, PIC130 and more. Side 2 includes EXTENDED BASIC (II - for all models, w/docs), DISKTOOL, BASIC ON and OFF, XRESET, REPAIR and more.

#39: UTILITIES Side 1 has DOS 4.0, the DOS that cost Atari over $100000, originally developed for the 1450XL. It is faster than both DOS 2 and 2.5, and supports single, enhanced and double density drives. Included is a huge on-screen HELP system. Side 2 contains MACHDOS version 3.7, a unique, full-featured DOS with "pop-up window" menu, auto-density switching, ramdisk support and many other features. With docs.

#47: UTILITIES Side 1 is the DOS 2.5 system disk, the current standard. You probably have a copy of DOS 2.5, but your's may be missing the accompanying utilities(?) Side 2: The complete DOS 3.0, as originally supplied with all 1050 drives.

#153: UTILITIES Graphic Operating System (G.O.S.) is a neat ST-like graphic desktop replacement for DOS. With viewer to display popular picture formats & sample pics. Includes two different versions of G.O.S., and a related utility - RODS. With docs.

#170: UTILITIES Side 1: MYDOS 4.5 - a great DOS, recently released into the public domain. Easy to use as DOS 2, but has subdirectory and double-density support, plus many other features. Side 2 has SuperDos-XL - version 2.6f of this DOS 2 compatible, featuring: drive speed check, sector verify & copy, radix convert and toggle write-verify.

#171: UTILITIES Side 1 has TOP DOS 1.5a - a DOS

packed with features including support for SSSD, SSDD, DSDD drives and ramdisk. Side 2 features ACE DUP ver. 3.2a - a DOS 2 clone with some useful added abilities.

LANGUAGES

#34: LANGUAGE TURBO BASIC XL/XE - a powerful BASIC for 800XL and XE computers only. Runs programs up to 3 times faster and includes COMPILER for even more speed. Compatible w/Atari BASIC and includes many new commands, structures, and functions. Complete docs for interpreter and compiler, and includes some demos. Also contains a fantastic drawing program written in TURBO BASIC. Nice!

#61: LANGUAGE This disk has FIG-FORTH, a great implementation of the popular language. Programs written in FORTH are compact and execute quickly. With editor and complete documentation.

#62: LANGUAGE TURBO BASIC 400/800 - Previously available for the XL/XE series only, the excellent TURBO BASIC interpreter can now be utilized by 400/800 computer owners! Complete w/docs. Needs 48k of memory.

#121: LANGUAGE This disk has the powerful MESA FORTH language, with source and complete documentation.

#122: LANGUAGE MESA FORTH source files, as well as other FORTH program source files.

#123: LANGUAGE Features two different implementations of the all-purpose "C" programming language. The ACE "C" language compiler, with sample program files, and the public domain version of the DVC "C" compiler. With docs.

#172: LANGUAGE This disk is for all TURBO BASIC users (800 and XL/XE)! Side 1 has TURBO BASIC TUTORIAL - if you are new to TURBO BASIC this detailed tutorial can really help. Also includes these TURBO BASIC programs: DIGILOO demo, KOALA PAD pic dump and more. Side 2 is full of selected programs which have been compiled by the Turbo Basic Compiler and run much faster.

#176: LANGUAGE This disk features the excellent DEEP BLUE C language compiler, with support files and sample programs. Includes extensive documentation. Requires 48k minimum.

#177: LANGUAGE Side 1 has the A65 assembler, modeled after Atari's AMAC macro assembler. The source files for A65 itself are included so it can be easily modified. With documentation. Side 2 has BASIC+ which adds useful commands to BASIC without using any memory. With docs.

COMMUNICATIONS

#45: TELECOMMUNICATIONS Includes a sampler of various popular terminal software - EXPRESS 1030 ver. 2.1, EXPRESS 850 ver. 1.0, AMODEM 4.2, AMODEM 7.22, AUTO1030.72, DIAL7.2. Much accompanying documentation.

#117: TELECOMMUNICATIONS MASTERMINAL - a versatile terminal program, with auto-dial directory, Xmodem support and complete docs. Versions for Hayes-compatible, 1030 and 835 modems; requires 48k.

#118: TELECOMMUNICATIONS Two versions of the AMIS BBS, a popular, full-featured bulletin board system. One for the 1030, another for the XM301 or 1030 w/ring detector (includes instructions for building ring detector.) With docs.

#119: TELECOMMUNICATIONS Features the powerful FOREM BBS (bulletin board system) for Hayes-compatible, 850/PR: interfaced modems. With documentation. Requires MYDOS.

#134: TELECOMMUNICATIONS Terminal programs: EXPRESS MPP for the MPP 1000c & 1000e modems; AMODEM 7.1 for Hayes-compatible, 835, 1030, 1000c & 1000e modems. With documentation.

#135: TELECOMMUNICATIONS AMIS 1200 BBS: 1200 baud bulletin board system for Hayes-compatible, 850/PR: interfaced modems. Also, EXPRESS 850 v.1.1s for SPARTADOS and Hayes-compatible modems. With all docs.

#136: TELECOMMUNICATIONS Side 1 features EXPRESS 850 ver. 3.0 terminal software for Hayes-compatible modems. With all documentation. Side 2 has KERMIT - This terminal emulator lets you communicate with IBM PC's, Atari ST's and many other computers. Excellent file control, includes docs. Requires 48k minimum, Hayes-compatible modem with 850/PR: interface.

#149: TELECOMMUNICATIONS Side 1: VT-100 Terminal Emulator - DEC/Vax compatible terminal with 80 column display. Runs 300 or 1200 baud, DEC and PROFS key layout. Requires min. 24k RAM, Hayes-compatible/835/1030 modem (patches for MPP & R-Verter) and a crisp monitor or B/W T.V. With docs. Side 2 has AMODEM 7.5 - powerful version of the great terminal program with many new enhancements. Comes with a handler for the SX212, but will also work with Hayes-compatible (850/PR: interfaced), 835, 1030, XM301 and MPP/Supra modems if you use the handler originally supplied with the hardware. Comes with all docs, requires 48k min.

#163: TELECOMMUNICATIONS PC TERM - deluxe shareware terminal program for Hayes-compatible modems or the SX212. Features autodialer and macros. Requires 48k min., 2 drives -or- 1 drive and a ramdisk. SpartaDos recommended. With extensive docs.

#164: TELECOMMUNICATIONS OASIS BBS - Excellent bulletin board system for Hayes-compatible, 850/PR: interfaced modems. SpartaDos, 2 drives/ramdisk

recommended. With detailed docs.

KOALA PAD PICS

* * * PLEASE READ!!! * * *
All KOALA PAD PICTURE disks include a slide show program that will allow you to display the pictures. "Koala Pad" pictures stored in the Micro Illustrator compressed format, allowing many more pictures to be placed onto a disk. The slide show viewer decompresses each picture as it is displayed. Since the compressed pictures vary in size, each disk contains a different number of pictures.

#1: KOALA PAD PICTURES 36 pictures, including: MADMAX, LOCKUP, ATARI 3D, MOONSET, COYOTE, DALLAS, BINKLEY, KUNG FU, KLINGON, NEWSPAPER, KHAN, SATURN, JAMES BOND, SHERLOCK, SPOCK, YODA, DINOSAUR and more.

#2: KOALA PAD PICTURES 45 pictures, featuring: MTV, FRISCO, DR. DOOM, PENGO, STARWARS, FRANKIE, EXCELSIOR, EYEBALL, LAUNCHPAD, NIXON, SPIDER, STAR TREK, ATARI X, MUSTANG, WITCH, TRAMIEL, SHUTTLE and others.

#3: KOALA PAD PICTURES 44 pictures, including: PREPPIE, CYNDI, RAMBO, GHOSTBUSTERS, ATARI 800, ALADIN, COCKER, HOT CHICK, INDIAN, TURNER, BILLY IDOL, SANTA, CONAN, KARATE, TOUCAN, DRAGON, FOX and more.

#4: KOALA PAD PICTURES 44 pictures, including: PROJECT ATARI, TUMBLEWEED, WINSTON, BEAST, GRADUATE, NIGHT OWL, BOWIE, MANSION, QBERT, ALIEN, MARINES, HITCHHIKER, CHICAGO 7, HEATHER, TRON TANK and more.

#87: KOALA PAD PICTURES 43 pictures, featuring: LADY, SQUEEZE, MRT, TEX, WINSTON, TEQUILA, UNCLE SAM, BEST GIRL, TIME MACHINE, GREMLIN, BO DEREK, SAILBOAT, NINJA, SALLY, LITE BEER, HULK, DRAGSTER, ROBIN, MADONNA, MOOSE and more.

#88: KOALA PAD PICTURES 38 pictures, including: AC/DC, WOMAN, ZULTAN, SUN, DEATH, ARCHON, DIZZY, BUD, DEPTH, ACE, TARDIS, PUMPKIN, ZZTOP, KISS, UNICORN, NASA, LIGHT HOUSE, SPACE 2010, DUKE, SNOWMAN and more.

#89: KOALA PAD PICTURES 44 pictures, including: VAMP, ERNIE, FONDA, ANALOG, LIFE, KIRK, VISITOR, LIFTOFF, APOLLO, FIREWORKS, PHEOBE, PINK, RACER, BRUCE, DRUMMER, MUMMY, FIGURES, PORKY, FACE, CRACK and more.

#90: KOALA PAD PICTURES 38 pictures, featuring: JULIA, BIKINI 2, FIGMENT, HUDSON, INDIANS, FARSIDE2, AWESOME, RIO, WOODY, GRIMM, FUJI, TITAN, LONGJOHN, REFLECT, IRON MAIDEN, ULTIMA, SPY VS SPY, CATPIC, OCTOPUS and more.

MISCELLANEOUS

#178: MISCELLANEOUS P.D. Listing. This disk contains a complete listing of every program and file on our public domain disks.

#179: MISCELLANEOUS "Essentials" - if you just got your Atari and don't have much software, this disk can help to get up and running fast. This all-around starter disk lets you sample some of the best in public domain software!

More Disks Coming Soon!

M.W.P.D.S. POLICIES

WARRANTY: Disks are guaranteed to be free from magnetic and physical defects only. If you receive a defective disk, return it within 30 days for replacement only, with a description of the problem. All programs come from P.D. sources and do not carry any warranty, expressed or implied. Under no circumstances will M.W.P.D.S. assume any liability for any losses incurred from the use of the programs we distribute.

HARDWARE REQUIREMENTS: Some programs require a translator disk to run on XL/XE computers (offered on one of the utility disks). Other programs require up to 48k or 64k of memory and/or additional peripherals. Some programs will only run on XL/XE models. We cannot be completely familiar with all the requirements of the many programs we distribute. Compatiblity cannot be guaranteed with your particular system. All our disks are distributed in single density, and none are copy-protected. Disks can be read by any Atari 8-bit disk drive. You don't need a double-sided drive to use these disks. Simply flip them over to read the second side.

TRADES: M.W.P.D.S. will trade for selected Atari 8-bit public domain software that is not on our list. For each double-sided disk full of software you send to us, we will send you two disks of your choice from our library. If you wish to trade, first check our catalog to be sure we don't already have it. (You may wish to order our "P.D. Listing" disk, which lists every file on our disks.) Next, send us the printed directory from each disk you wish to trade, and a general description of the type of programs on each disk. Do not send any disks at this point! We may already have your disks, but they haven't yet been cataloged. If the software meets our criteria, and we don't already have the same programs (possibly under different file names), we will send you a written request to send us your disks.

CATALOGS: Updated P.D. catalogs, as made available, will be sent to our past customers. If for any reason you need a replacement catalog, just write us to request one. Replacement order forms will be sent out with each order when shipped.

ABOUT P.D. SOFTWARE: Public domain software is without copyrights or patents. It may have been previously copyrighted, but for various reasons, no longer is. Since P.D. software is free to the public, we are in the business of selling the copying, cataloging and distribution services, and the disks. The quality of many of these programs is as good or better than commercial versions, but P.D. software quality varies from program to program. Many programs have documentation, and most without it are easy enough to understand. If you know of any program in the listing which is not public domain, please inform us, and it will be removed upon proper notification.

ABOUT SHAREWARE SOFTWARE: Some disks contain programs which are known as "Shareware". "Shareware" is a term which describes software which is copyrighted, but can be distributed freely. Since these programs are the authors' property, the copy you receive is intended to allow you to "try before you buy." If, after this initial trial period, you continue to use the software, you are expected to register your copy. This involves sending a small fee to the author (not MWPDS!), usually between $5 and $50 dollars. As a registered user, you will not only contribute to the development of more software (as well as help defray costs already incurred), but may also receive varying degrees of support from the author. Another form of distribution is usually called "User-supported". User-supported programs are also copyrighted, but only ask that you to make a voluntary donation. Both Shareware and User-supported software distribution concepts are great alternatives to commercial software, but rely on users' integrity to succeed. Please respect the authors' rights and wishes by making the proper payment/donation.
